GROCERY MEN CONSOLIDATE.

An important change in the busi-
ness field of Rhinelander will take
place this week when P. N. Hammer
and Emil Johnson, two leading gro-
cery men, will consolidate. Mr. Ham-
mer's store on the south side will
close Saturday evening and the stock
will be removed to the Johnson store

on Davenport street where the firm
will hereafter be located. Both gentle-
men have been in business here sever-
al years and are experienced in their
line. They have a large acquaintance
and by prompt service and attention
to customers will no doubt receive a
large patronage in their new venture.
Nothing but the best of groceries will
be kept in stock.

TAKEN FOR DEER GUIDE IS SHOT

Chas. Harper of Mercer Seriously In-
jured By Member of Milwaukee-
Hunting Party.

Chas. Harper, a business man of
Mercer, Iron County, Iles at St.
Mary's hospital suffering from an ugly
bullet wound in his right leg. The
man was mistaken for a deer by a
member of a hunting party from
Milwaukee who he was guiding. The
shooting was done by a man named
Hawkins and was purely accidental.

While guiding the party in a deer
hunt near Mercer, Sunday afternoon,
Harper started out to make a drive.
Leaving the men stationed at different
places in the woods he told them that
he would soon locate a deer and start
the animal in their direction. He expected
to return in half an hour. Harper had been gone about
ten minutes when Hawkins heard a
cracking in the underbrush and mistak-
ing the gray trousers worn by
the guide for the legs of a deer he
raised his rifle and fired. He was at
once apprised of his terrible mistake
by a frightful yell from Harper. Hast-
ening to the man he found him
writhing in pain with a bloody wound
in his right leg near the groin. The
missile used was the deadly soft nosed
bullet which badly shattered the bone.

The injured man was taken to Mercer
and that evening brought to the
hospital in this city. He suffers intense
pain and it is feared that it may be
necessary to amputate the leg.
Owing to the nature of the injury it
is doubtful whether Harper would be
able to withstand the operation.

Hawkins, the one responsible for
the shooting, accompanied Harper to
the hospital and is doing everything
possible for him. The accident has
had a most deplorable effect on the
man and he is under a severe nervous
strain.

FIND A HUMAN FINGER.

Ghastly Discovery Made By Peter Nelson
Early Tuesday Morning.

When Peter Nelson, a salesman at
Gary and Danielson's store, came to
work, Tuesday morning, he was hor-
ribly shocked to discover lying in the
doorway of one of the main entrances
a human finger. Visions of revolting
crimes instantly ran thru Peter's brain
and in terror he hastened to inform
the police of his ghastly find. At first
the officers were disinclined to believe
Peter's startling story but returning
with him to the store they too-
gazed with awe upon the dismembered
digit and were convinced that
Peter was not laboring under a wild
delusion.

The finger was that of a man's and
had been severed below the first joint.
Part of the flesh had been cut away
leaving exposed about two inches of
bone.

How the finger made its way to the
store is a mystery. It is almost cer-
tain that it does not tell the story of a
shocking murder as nothing of this
kind has ever been reported to the
police. One solution offered of the
mystery is that the finger was thrown
out of a physician's office and carried
to the store by a dog.

Mr. Gary upon his arrival at the
store consigned the finger to the fur-
nace.

Several days ago two little boys told
Chief Straub of seeing a finger while
playing about an alley way on Stevens
street.

DEER HOUND IS CAPTURED.

The first capture of the hunting
season was made by Game Wardens
Martin Berg of this city and Michael
Kleist of Kenosha, who seized the
prize deer hound of Northern Wisconsin
owned by Paul Bellant, a trapper
on Muskalonge lake, in Vilas county.
The Wardens saw the dog running
and traced it to Bellant's shanty.
The hound was shipped to Kenosha.

Bellant was brought before Justice
Sayner, at Sayner, and given a fine
which with costs amounted to \$30.10.

HURT BY CARS.

While attempting to catch a ride
on a Soo freight train, near Armstrong
Creek, George Neal, a woodsmen
was thrown beneath the cars
and badly injured.

He was walking along the track on
his way to Dunbar when the train,
slowly pulling up a grade, approached
him. As the caboose passed he made
an effort to board it but slipped and
fell under the trucks. One hand was
severed and he was otherwise severely
bruised.

NOW IN JANEVILLE JAIL.

Donnerstag Transferred to Rock County
Institution For Safe Keeping.

Hugo and Adolph Donnerstag, who
were recently returned from this city to
Madison after their capture follow-
ing their escape from the Dane coun-
ty jail, were arraigned in the federal
court last Tuesday morning and ad-
mitted to bail in the sum of \$5000
each by Judge A. L. Sanborn. In de-
fault of furnishing this amount they
were committed to the Rock County
jail at Janesville.

The Rock county jail is a stronger
and more modern institution than the
one at Madison and the prisoners were
transferred there for that reason. In
view of the brothers' recent escape
the authorities desire to take no more
chances with them although it is not
very likely that they would attempt
another delivery. During the past
several federal prisoners have slipped
out of the Dane county jail.

Rudolph Donnerstag, at St.
Mary's hospital, is gradually recover-
ing from the effects of his recent
operation. It will be many weeks, tho,
before his condition will be such
as to allow his removal.

MINOCQUA MAN COMMITS SUICIDE

Despondent, Carl Meyer Ends His
Earthly Troubles By The
Rope Route.

Penniless and despondent from ex-
cessive indulgence in liquor, Carl
Meyer, a resident of Minocqua, ended
his earthly troubles by taking the
rope route to eternity at Minocqua,
Friday morning.

Meyer was last seen alive at about
8:30 o'clock that morning. One half
hour later, John Anderson of Wood-
dell, while walking along the Hazel-
hurst road, was horrified to see the
lifeless body of a man swinging from
the cross arm at one of the goals on
the Minocqua foot ball field. On
closer inspection the body was found
to be that of Meyer's. The evidence
was plain that the unfortunate had
taken his own life.

Meyer was forty-eight years of age,
unmarried, and had made Minocqua
and Woodruff his headquarters for
several years. Around both towns he
was a familiar character. Last winter
he attempted a small logging job but
success did not favor him. He drank
heavily and most of the time was in
a state of intoxication. For a number
of days before committing his rash
deed he had been on a continuous deb-
auch.

He was without money but owned
a team of horses which will probably
be sold to defray the expenses of the
burial.

FIRE DAMAGES RESIDENCE.

Children With Matches Cause Heavy
Loss For Martin Berg.

The residence of Martin Berg at
1114 Olson Street was considerably
damaged by fire which broke out at
six o'clock Friday evening. It was
only due to the prompt service of the
department that the home was saved
from entire destruction. It is the be-
lief that the blaze was caused by lit-
tle children who were playing with
matches in one of the front rooms.

Mr. Berg was not home at the time
and the housekeeper was busy in the
kitchen preparing the evening meal.

The wood work and furniture in
the front rooms were ruined and the
loss is several hundred dollars.

MANY DEER ARE KILLED.

Thousands of Hunters Now In Woods of
Northern Wisconsin.

A conservative estimate places the
number of deer hunters now in the
woods of northern Wisconsin at sev-
enty-five thousand. The snow which
fell last Friday made the tracking of
deer an easy matter and on Saturday
and Sunday hundreds of the animals
were slaughtered. Up to the present
time few deer have been brought
to the city although the express car
of every train thru here for the last
few days has been well loaded with
carcasses. At Monroe, Tuesday fore-
noon, forty-two deer were taken on
the south bound Northwestern pas-
senger train. These deer were killed
along the Watersmeet branch and
were consigned to various points in
the southern part of the state.

While attempting to catch a ride
on a Soo freight train, near Armstrong
Creek, George Neal, a woodsmen
was thrown beneath the cars
and badly injured.

He was walking along the track on
his way to Dunbar when the train,
slowly pulling up a grade, approached
him. As the caboose passed he made
an effort to board it but slipped and
fell under the trucks. One hand was
severed and he was otherwise severely

a banquet Tuesday evening at the
library lecture room.

NEW EDIFICE TO BE DEDICATED

Work On Congregational Church Fin-
ished--Former Pastors To As-
sist At Services Sunday.

The dedication of the Congregational
Church and services in commemora-
tion of the twenty-fifth anniversary
of the coming of Jackson Tibbets,
pioneer missionary to Rhinelander,
will be held Sunday. Rev. J. H.
Chandler and Rev. Alfred G. Wilson,
former pastors of the church, will assist
in the services. Below is the program:

SATURDAY EVENING, NOVEMBER 21:
Preliminary Services, with Address
by Rev. Homer W. Carter, D. D., Bel-
oit; Subject "Day After Tomorrow."

SUNDAY MORNING, 10:30 Nov. 22:
Commemoration Service.
Chant by Quartet.

Anthem by Quartet.
Commemorative Address by Rev. J.
H. Chandler, Chicago. (A former
Pastor.)

SUNDAY AFTERNOON, 3:00:
Platform Meeting; Informal ad-
dresses by former pastors; also let-
ters of greeting read.

SUNDAY EVENING, 7:30:
Service of Dedication.
Chant by Quartet.

Anthem by Quartet.

Act of Dedication.

Prayer of Dedication, Dr. Carter.
Dedicator Sermon, Alfred G. Wil-
son, Plymouth.

Benediction.

The church, after the work of re-
modeling the past summer and fall,
is practically a new edifice. No one
dreamed that the former building
could be transformed into a structure
of such beauty and symmetry as the
present one.

The architectural appearance has
been vastly improved by raising the
old building eighteen inches on the
basement wall, by extending the
south wing, by rebuilding the tower,
by constructing attractive entrances,
and by the replacement of the old
windows on the west and north sides
by large sashes of beautiful design.

The rough cast stucco work in
which the exterior of the building is
finished is novel and lends a rich and
pleasing appearance. The oak sash-
doors set with plate glass which adorn
each entrance are in keeping with
the general attractiveness of the ex-
terior of the building.

The auditorium has been newly
decorated, the pews revarnished, the
choir and organ lofts greatly improv-
ed in appearance. The commodious
and convenient basement rooms har-
monize with the rest of the build-
ing. The ceiling is ten feet high, the
rooms are well lighted, and finished
attractively; the woodwork being
Georgia pine finished in natural color.
All floors are of hardwood. The main
room in the basement is 50x55 feet
which is to be used for Sunday school
purposes and general amusements.

The young men have an elegant club-
room, off which is a shower bath, a
class room, two toilet rooms, and a
well arranged kitchen. A new steam
heating plant has been installed,
which insures adequate warming fa-
cilities.

CURIOSITY OLD NEWSPAPER.

F. T. COON HAS COPY OF ULSTER COUNTY
GAZETTE PRINTED IN 1800.

F. T. Coon is the possessor of a rare
curiosity in the shape of an old news-
paper. It is an original copy of the
Ulster County Gazette, published at
Kingston, Ulster County, New York,
and dated Saturday, January 4, 1800.
The front page of the paper is de-
voted almost entirely to the proceed-
ings of the American Congress while
the two inside pages contain an ac-
count of the funeral of George Wash-
ington. A heavy black border in
mourning for the first President is
run down each side and at the top
and bottom of the sheet. Among the
advertisements on the back page is
that of one, John Schoonmaker of
Rochester, N. Y., who offers for sale
"a stout, healthy, active negro
wench." There are also notices of
several sheriff's sales.

The paper was formerly the property
of Mrs. Coon's father, the late Geo-
W. Lounsbury of Berlin, and was
found among his personal effects
shortly after his death. Considering
its age the paper is in excellent con-
dition.

FOR CONSTIPATION

A Medicine that Does not Cost Anything

Unless It Cures.

If you suffer from constipation in any form whatever, acute or chronic, we will guarantee to supply you medicine that will surely effect a cure if taken with regularity and according to directions for a reasonable length of time. Should the medicine fail to benefit you to your entire satisfaction, we promise that it shall cost you nothing.

No other remedy can be compared with Rexall Orderlies for the easy, pleasant and successful treatment of constipation. The active medicinal ingredient of this remedy which is odorless, tasteless and colorless, is an entirely new discovery. Combined with other extremely valuable ingredients, it forms a preparation which is incomparable as a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience, and may be taken at any time, day or night.

We particularly recommend Rexall Orderlies for children, delicate or aged persons because they do not contain anything that could possibly injure the most delicate organism. They are just as easy to take as candy, and unlike other preparations for a like purpose they do not create a habit, but instead they overcome the cause of habit acquired through the use of ordinary laxatives, cathartics and harsh physic, and permanently remove the cause of constipation or irregular bowel action.

We want you to try Rexall Orderlies at our risk. We know that there is nothing that will do you so much good, and we will refund your money without argument if they do not do as we say they will. They are prepared in tablet form in two sizes of packages; 30 tablets, 25c, and 12 tablets, 10c.—J. J. Reardon, Rhinelander, Wis.

FROM NEARBY TOWNS.

Barron—Barron county will build its own county asylum. An appropriation of \$150,000 to be secured by an issue of bonds, has been made by the county board which by a vote of 28 to 13 decided on the erection of a building for the treatment of insane persons of this county.

Medford—Harry Kyle was killed near Miller's dam. He was one of a party of hunters with H. Liberty, a mill owner from the town of Holway. This makes the third hunting casualty in Taylor county in three weeks.

Hurley—The ore shipments from this range to the Ashland docks over the Northwestern last week were the greatest in the history of the road. The total shipments for the week amounted to 118,898 tons, twice as much as some of the best weeks previously in the season.

Phillips—The John R. Davis Lumber company has had a big force of men at work laying the new dry kiln, which is to be built near the big saw mill.

Wausau—Robert Briggs, an electrician in the employ of the Wausau St. Railroad company, had an electric current of 2300 volts pass through his body and lives to tell the story. He was not even slightly hurt and re-

turned to work the next day after the accident.

Crandon—Chas Vanzile and Wm. Miracle are serving sixty day sentences in the county jail here for shooting deer before the season commenced. Both men are full blood Indians.

Ashland—The plant of the Lake Superior Iron & Chemical company which for several months has been closed will resume operations November 10. This plant was to have started in October but was delayed to await the results of election.

New London—The Hatton Lumber company's mill has closed having completed its seasons cut. Repairs will now be made and the mill again run after the holidays.

Oconto—Ignace Marachowski was sentenced by Judge Hastings to five years in the penitentiary for setting fires to farm buildings. He pleaded guilty to the charge and less than forty-eight hours after committing the deed had received his sentence. Marachowski is a Russian 68 years of age.

Merrill—Two saloon keepers were arrested here last week for selling liquor to minors.

Ironwood—The body of M. C. Ormes, head woodsman for Scott & Howe, was found in the woods about twenty miles from Tacoma, Wash. He had been cruising in the timber about six miles from Puyallup. The cause of his death is not known here.

Merrill—While shooting birds in his back yard Fred Lindauer accidentally sent a bullet thru a window of the Lincoln Hotel. It struck the sash and was deflected hitting Scott McDonald, a traveling salesman in the neck. Aside from awakening him from his sleep the bullet did no injury.

Wausau—Charging that he was beaten and then locked in an air-tight freezing refrigerator car, which caused him to lose his health, and was accompanied by rough usage which broke his leg, Peter Mayer of Edgar has brought suit for damages for \$5000 against Thos. Hill and Wm. Darge whom he alleges made the attack upon him.

A Methodist Minister Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years for diarrhoea. I consider it the best remedy I have ever tried for that trouble. I bought a bottle of it a few days ago from our druggist, Mr. R. R. Brooks. I shall ever be glad to speak a word in its praise when I have the opportunity." —Rev. J. D. Knapp, Pastor M. E. Church, Miles Grove, Pa. Sold by F. L. Hinman & Co.

LAMOREAUX ACQUITTED.

The long drawn hearing of charges of unprofessional conduct on which was based the demand for disbarment of Attorney Frank B. Lamoreaux of Ashland has finally ended in his acquittal. There were thirteen charges against him, covering a range of sixteen years' practice at Stevens Point and Ashland. District Attorney Foley of Superior prosecuted the case and Mr. Lamoreaux was defended by L. K. Luse of Superior and Senator Sanborn of Ashland.

SUGGESTIONS TO TEACHERS

State Superintendent Cary Advises Superintendents and Teachers to Study Pupils.

He says: I should like to refer to an article on the Hygiene of the Nose by Dr. Burnham, which was printed in the June Pedagogical Seminary, but so few have access to the magazine that I shall summarize the important points in the article in the hope that the superintendents and principals will give the matter some special attention in their schools at once. I shall not use quotation marks, but all that follows is quoted matter from the article referred to.

The swelling of the mucous membrane due to a cold is more serious than is usually supposed. With closed or considerably narrowed passages carelessness in speech occurs. The child learning to speak has to contend with enormous difficulties anyway; when the parts involved in speech are in morbid condition these difficulties become almost insurmountable. The ability to think and the power of prolonged attention change with the swelling of the mucous membrane; likewise the power to hear. Overheated rooms and damp weather increase the difficulty. Headache, decreased ability to work and decreased brain activity are results of congestion.

Adenoids frequently develop early in the life of the child and greatly hinder his development. In a typical case the child keeps the mouth open, has a dull, sleepy, inquiring look, in extreme cases like an idiot; he speaks through his nose and the sound is dead. He sleeps with his mouth open, snores loudly, starts up and gasps for breath, sometimes has convulsions. Nutrition is often seriously impaired; growth is not normal; the chest is apt to be flat. It is estimated that sufferers from adenoids are from 5 to 25 percent, varying somewhat according to climatic and other conditions. Adenoids bring on deafness through closing the openings of the Eustachian tubes. The growth of the body and skull is affected. The child is tired, dull and sleepy with little power of attention and of memory. Mouth breathing is not always associated with adenoids; it may be due merely to bad habit. The operation for adenoids is usually very successful. The effect on the general health is pronounced; it seems as though a heavy weight had been removed from the child's body, as though a life that had been in bondage had been set free. The pale, sickly, poorly-nourished children begin to grow in all directions. Their bodies show better nourishment, the once flabby flesh becomes firmer, the skin becomes a better color, the stupid facial expression gradually disappears and the normal physiognomy is established; and in the deformed faces of mouth-breathers, if the condition has not existed too long, there is a decided change for the better as soon as the nasal breathing is established.

With the younger children usually the hearing is restored. The nervous, irritable, peevish disposition soon fades away and the child seems like a new being. At night the child does not toss about in bed. The snoring and struggling for air is replaced by peaceful quiet sleep.

It would be well for the superintendent to go through his schools and make the attempt to pick out the children that are thus afflicted and then see what can be done to improve conditions. The following set of questions will aid:

1. Does the pupil sit with open mouth?
2. Does the pupil complain of headache?
3. Is the pupil inattentive?
4. Is the pupil backward in learning?
5. Does the pupil's voice have a nasal sound?
6. Does the pupil stutter?
7. Is the pupil hard of hearing?
8. Does the pupil complain of earache?

IS BARBAROUS MISSILE.

The following editorial appeared a few days ago in the Milwaukee Evening Wisconsin:

"It is stated from Rhinelander, Wis., that one of the Donnerstag brothers who have been rearrested for counterfeiting after a sensational escape from jail, will have to be operated upon by surgeons because the wound he received when he was recaptured was by a dum-dum bullet, which struck a bone and shattered it. If this be true, somebody has been guilty of using a missile for police work which European countries have proscribed as barbarous.

DEATH OF MRS. HOLLIS.

A telegram received yesterday morning announced the death of Mrs. Joe Hollis, who resides at Wausau.

Mrs. Hollis was an aunt of Mrs. James Langill of this place and Mrs. Ed. Brazell of Pelican. She had been visiting Mrs. Langill, returning home but three weeks ago.—Villas County News.

STATE SOIL SURVEY URGED.

University soil Specialist shows need of legislative action.

"There is, perhaps, no state with a greater diversity of soils than Wisconsin," says Professor A. R. Whitson of the College of Agriculture, University of Wisconsin, discussing the great need for an adequate soil survey of the state. "Beside the large areas of intermediate clay loam soils, we have approximately 3,000,000 acres of extremely heavy clay, almost 3,000,000 acres of marsh lands, and between 4,000,000 and 5,000,000 acres of sandy soils. The coming legislature will be urged to provide for a complete survey of the soils of the state. The soil is our greatest natural asset, and the permanent prosperity of our state depends largely on how we utilize our natural resources. These special types of soil call for the different methods of farming and a complete adaptation of the system of farming to the land under cultivation."

Through an error in the footings of the tabular statement of the issue of Nov. 6, Carl Krueger should have been given a total of 1229 instead of 1194; this gives Mr. Krueger a majority of 263.

There are many who do not take a single local paper who know better how they should be edited than the men who run them. If the books of

the offices were examined there might be excellent reasons why such gentlemen's names are not on the list.

In The New North, of November fifth we gave good and substantial reasons why L. W. Wood, present state Inspector of district schools, should be chosen State Superintendent at the election next April. Last week at Milwaukee at the state teachers' association a large per cent of the active school men of the state met and advocated Mr. Wood's candidacy. They stated that he was well fitted and interested in all lines of school work and especially to do great service for the country schools. More, he is congenial and acceptable to all classes of school men. Mr. Wood's chances look bright for the election. Conditions make him the logical candidate.

The city is still in darkness. How long is this condition to remain? At first it was thought that dark streets were simply a temporary affair but now it looks as though such conditions may continue indefinitely if nothing is done. The Hat Rapids Power Company is not to blame for low water in the river, neither are the citizens of Rhinelander. If there were no other way to give the people

street lights it would be different but there is a splendid gas system here; it has been tried at the corner of Oneida Avenue and King street and has proved most satisfactory. The cost of gas is no more than that of electric lights. Is it not possible to remove every other electric light throughout the main part of town and install gas? If so it should be done at once, then the city would not be wholly at the mercy of either lighting system.

AN INTERESTING SUIT.

An interesting legal point has been raised by the city of Superior in a suit against the state railroad commission resulting from the commission's order that the Douglas County Telephone company cease to supply telephone service free of charge to the city officers. The city is complainant in the suit and the railroad commission and telephone company are defendant. The city granted the company a franchise, among the conditions of which was an obligation on the part of the company to furnish the city telephone service without charge.

Now the railroad commission has held that free service is contrary to the public utilities law, and the city

makes the claim that the franchise constituted a valid contract which the new statute would impair if enforced.

As the same conditions regarding free phone service exist in many other cities in Wisconsin the outcome of this suit will be watched with interest.

KAISER YIELDS TO THE PEOPLE.

The world moves, even Emperor William is compelled to yield to the will of his people, and the Emperor's own chancellor acts as their agent. When a brave man knows he is doing right and feels he has the people back of him he is willing to take great chances. The intemperate utterances of the Kaiser regarding international affairs has taken away his personal power and placed the government in the hands of the chancellor and the legislative body of Germany.

The Emperor says, "It was the

bitterest hour of my life."

This is a good lesson for Uncle Joe. Will he heed the will of the people or will he continue to over-ride their wishes until he is crushed?

SHALL CHILDREN STUDY AT HOME?

Some very important matters were taken up at the state teachers' association, one about which there has

been much discussion of late years is whether children should study out of school.

In many instances it is all nonsense to talk about children being over-worked at school. If there were more systematic work at home and less congregating on the streets and in secluded places learning to smoke cigarettes and plotting to violate the law, there would be better health and better citizenship.

Mr. Nelson, Superintendent of schools at Racine, so nearly puts the matter as we see it that we publish a little of his address.

Discussing the subject of "Home Reading and Home Study," Sept. 11, Mr. Nelson, Racine, said that the professional pessimists have urged so long that the child is being over-worked in school that the idea had become implanted in the minds of educators with bad effect.

"School is a serious business," he said. "The school is under obligations to make the boy worth while, and this can not be done so long as he loaf and idles. It can not be done until he learns how to master his task successfully. Life is too easy for a child at present. Unpleasant tasks should not be shirked, and the teach-

er should insist on work."

Mr. Nelson advocated no home study for pupils under the fifth grade.

After that time, he said, tasks should be assigned for home performance that will occupy from half an hour to an hour and a half a day. He incidentally took a sly rap at the teacher who considers herself over-worked if she is obliged to work out of school hours, saving himself, however, by hinting that the only teachers of this kind with whom he is acquainted, live in the Allegheny mountains.

Clarence does nothing but attend to the feeding of the doves while Flint superintends the killing and dressing. Clarence has had plenty of experience in the raising of doves and squabs and before going west was engaged in this business in Rhinelander.

PE-RU-NA RECEIVES PRAISE

For Relieving Such Symptoms as Debility, Backache and Headache.

Mrs. Tressie Nelson, 900 North 5th Ave., Nashville, Tenn., writes: "AaPeruna had done me a world of good. I feel in duty bound to tell of it, in hopes that it may meet the eye of some who has suffered as I did."

"For five years I really did not know what a perfectly well day was, and if I did not have

MRS. TRESSIE NELSON.

headache, I had backache or a pain somewhere and really life was not worth the effort I made to keep going.

"A good friend advised me to use Peruna and I was glad to try anything, and I am very pleased to say that six bottles made a new woman of me and I have no more pains and life looks bright again!"

There are a great many phases of women's ailments that require the assistance of the surgeon.

But by far the greatest number of such cases are amenable to correct medical treatment."

A vast multitude of women have been relieved from the ailments peculiar to their sex through the use of Peruna as prescribed by Dr. Hartman.

He receives many letters from all parts of the country relating to subjects of vital interest to womankind.

The vast multitude of women Dr. Hartman treats annually, only a small part of them consider it necessary to write to the Doctor at all.

While it is not affirmed that Peruna will relieve every case of this kind, it is certainly the part of wisdom for every woman to be afflicted to give Peruna a trial.

F. R. Tripp of Sugar Camp spent several hours in the City, Monday. Mr. Tripp, who is the proprietor of a large general store there, reports business as brisk.

Val Eschwig and daughter Miss Hazel returned Monday from Fosterville and Winchester. While in that country Mr. Eschwig killed two fine deer, the limit allowed by law.

The first snow storm of any consequence this season prevailed last Friday night. Saturday morning the ground was covered with about an inch of the beautiful. The storm was general throughout northern Wisconsin and in many localities the fall of snow was much heavier.

A foot ball game was played last Saturday at Chicago between Chicago University and Cornell University which resulted in the tie—6 to 6. This is supposed to represent the comparative strength of the east and west. Next Saturday Chicago and Wisconsin Universities play at Madison to decide the western championship. This will be the great western game of the season.

Little girl with the big voice. Little Winifred, who plays the lead in Harry Shannon's excellent play "The Banker's Child," has a wonderful voice and her singing has given her this trade mark as it were. Although only seven years of age she plays the part of Stella in a manner that brings forth the admiration of the audience from the start, as is shown nightly by the amount of applause she receives. This excellent play will be seen at the Opera House on Thanksgiving evening Nov. 26.

The young people of the Baptist church will give a "corn cob social" on Thanksgiving day beginning at 8 o'clock, P. M. It will be a most unique affair—nothing like it has ever been seen in this city. It will afford the young people of the community all the features essential to a happy and profitable social evening. You are invited. Date—Thursday Nov. 26, 8 o'clock p. m.

We Are Thankful

Thankful that we have lived another year.
Thankful that the year has been prosperous for the majority.

Thankful that we have had many patrons.

Thankful that we have in a humble way served the public to our mutual benefit and financial gain.

Thankful that the future looks as prosperous as the past.

Thankful that peace and plenty predominate in the land.

And we will thank you to come and see us again.

WRITES OF IRRIGATED LANDS

Gerry Brown has interesting article on Washington in Conservation.

In the October number of Conservation the official magazine of the American Forestry Association, is an article by G. E. Brown, formerly of this city now of Spokane Bridge Washington, entitled Irrigated Land Opportunities which is of great interest. He says the net profit of \$500 to \$1000 per acre on fruit lands and \$50 to \$75 per acre alfalfa, rye, oats and wheat lands seems impossible and says, "It seems more impossible when one travels hundreds of miles and sees nothing but sage brush lands surrounded by hills." "This land is worthless without irrigation but with irrigation it becomes most valuable." There are thousands of acres available for irrigation but due to the lay of the land and soil some of it never will be irrigated but is valuable for grazing.

With a small amount of money any person can become independent. "There are more opportunities to the square yard than to the square mile in the East or Middle West."

The article says the Hood River districts and also the districts near Spokane are the great apple territories of the world. Apples are packed in boxes and sold for \$1.75 to \$1.50 per box and commission men in the spring try to contract for the small fruit.

The land which will grow this wonderful fruit commands a price of from \$25.00 to \$150.00 per acre and bearing orchards on the same lands will sell for \$1200 to \$2500 per acre. Mr. Brown gives good reasons for believing there is no fear of an overproduction on these high grade apple lands and says they will constantly increase in price. The territory west of Colorado is in its infancy. People by the thousand are taking up these opportunities, small towns are increasing in population. The people are congenial and life is ideal. There has never been a better time for people with moderate means to invest in the great irrigated tracts of the West. People in the East and Middle West are just realizing these opportunities and taking advantage of them.

One year ago Mr. Brown visited the West and became so enthusiastic that he has moved there and is now settling an orchard. He is very sanguine about its future.

A party composed of A. W. Brown, Archie Silverwright, Arthur Taylor, and M. H. Raymond are on a deer hunt near Cavour.

IS GOVERNOR DAVIDSON A TOOL?

There is a powerful combination in the state, Stevenson, Edmonds and Connor, which has for its purposes

nothing else than the defeat of Senator La Follette two years from now. It is also interesting to know that these gentlemen hold the whip that made G. V. Davidson jump and do their bidding.

When the Governor started out on his campaign this fall, he did not know where he was going. The state central committee started him out under the guidance of a Mr. Wayland of Appleton, and Mr. Wayland had positive instructions not to tell the governor in advance where he was going for fear he (the governor) might balk at the prospect of invading Trempealeau County to fight against his former friend, Ekern. We happen to know this to be a fact for it was in the confines of Green Lake County that the governor protested against going into Dunn and Barron Counties because he felt he could do more good in the eastern part of the state.

Mr. Wayland explained when the governor had left the party for a few moments that he did not dare tell the governor that he was going to Trempealeau County. It seems however that the Governor got to that stage in the game where he could not refuse. He went to Trempealeau County and did as he was told. Now will the triumvirate give him the reward he has earned? Governor Davidson wants to be senator two years hence—he will get there. He has served all the purposes of Messrs Stevenson, Edmonds and Connor.—Berlin Courier.

PECULIAR ACCIDENTS.

The "Irony of Life" illustrated in Stories of Falls.

The "Irony of Life" was strikingly illustrated recently in the news of a rustic who slipped from a six barred gate and broke his neck and of an Italian aeronaut who fell 1,000 feet with his collapsed balloon with no worse result than a sprained ankle.

A Frenchwoman, Mme. Morel, and her daughter, while climbing in the Alps, near Zermatt, fell a distance of 1,200 feet, not much less than a quarter of a mile, and, although the mother was killed on the spot, her daughter escaped with a few bruises. Mr. Whymper, the famous mountaineer, had a similarly miraculous deliverance from what seemed to be certain death when scaling the Matterhorn. Losing his footing, he fell from rock to rock to the bottom of a precipitous gully, 100 yards in depth, only to recover his feet with no worse damage than a badly cut head. And M. Parville, a French writer, tells the story of an East Indian living in the island of Ogham, who fell over a precipice 1,000 feet deep with no more serious consequence than a good shaking, his fall being broken by the dense vegetation which grew at the foot of the cliff.

While climbing a waterworks tower 240 feet high in Chicago a steeple-jack dislodged a loose stone and was precipitated to the ground from a height of 175 feet, fortunately striking telegraph wires forty feet above the street and thus breaking his fall. The spectators gasped with horror as they saw the man drop swiftly to destruction. A rush was made to pick up his shattered remains only to discover that he was practically unharmed. Not a bone was broken, and a week later he was walking about as if nothing had happened.

More remarkable and indeed almost incredible was the experience of Charles Woolcot when he was making a parachute descent in Venezuela. At a height of 3,000 feet Woolcot flung himself off his balloon into space, when, to the horror of the thousands of onlookers, the parachute failed to open. The man dropped like a stone with terrible speed until, when about 200 feet from the earth, the parachute flew open and at once collapsed. He was dashed to the ground, his right thigh and hip were broken, both ankles and knees were badly crushed, and his spinal column was dislocated, and yet, after a year spent in hospital, Woolcot was restored to soundness of limb after surely the most terrible adventure of which any man has lived to tell the story.

But it is in the history of ballooning that one encounters the most remarkable cases of sensational drops from the clouds. When Mr. Wise, a famous aeronaut of the early nineteenth century, was once making an ascent his balloon exploded at an altitude of 13,000 feet and began to drop swiftly to the earth, more than a couple of miles below. "The descent at first was rapid," Mr. Wise writes, "and accompanied by a fearful moaning noise caused by air rushing through the network and the gas escaping from above. In another moment I felt a slight shock, and, looking up to see what caused it, I discovered that the balloon was canting over, being nicely doubled in the lower half into the upper."

The balloon had, in fact, formed itself into a parachute and, oscillating wildly, continued its descent until it struck the earth violently, throwing the aeronaut ten yards out of the car. "The car had turned bottom up, and there I stood," says Mr. Wise, "congratulating myself and the person spirating rolling down my forehead in profusion."—St. Louis Post-Dispatch.

There Is No Economy in Buying by Mail

WHY

Because few stove buyers stop to think of the risk they run in buying a stove by mail on the unsight unseen plan. They are caught by extravagant claims of far away unknown makers who try to make it appear that the local merchant is asking extortionate prices. If buyers will remember that whatever you buy or wherever you buy it, you only get what you pay for, you will not be fooled by such claims. Thousands of stove buyers who have purchased a stove from mail order houses can tell you they were deluded by the "something for nothing" bait and paid dearly for an inferior unsatisfactory article.

We Want You to Call and See Our Stock
and Learn Our Prices.

We will soon convince you that we offer you the best values in stoves, and that the economy order buying is a delusion and snare. Learn both sides of the story and if we cannot demonstrate the TRUTH of our assertions, buy elsewhere and there will be no hard feelings, as you have given your local dealers the chance to convince you that he is giving you full value for your money.
